

Engineer Project Manager 2 – Bridge

The Pennsylvania Turnpike Commission is looking for highly motivated individuals to fill two Engineer Project Manager 2 – Bridge positions.

Duties and Responsibilities:

- Participates in the development of the scope of work for project and the consultant selection process
- Manages bridge rehabilitation and replacement projects as prepared in-house or by consultants
- Maintains project scheduling and activity to assure project compliance and prepares necessary reports for supervisory staff
- Develops and reviews plans and specifications for bridge projects managed by the Bridge Design Unit and in support of bridge and highway structure projects managed by other Turnpike Engineering Design Units
- Performs and is proficient in the load rating analysis of highway bridges
- Reviews and approves permit load requests
- Assists in management and maintenance of the Commission's PONTIS (Bridge Management) System
- Coordinates input from various Commission departments and other agencies for proper project development

Requirements and Qualifications:

- Bachelor's Degree with major coursework in Engineering
- EIT Certificate and two years of experience in Bridge and Highway Structure Design or six years of experience in Bridge and Highway Structure Design without an EIT Certificate

The salary range is \$57,730 - \$85,683, with starting salary up to midpoint.

If an accommodation is needed to participate in the preemployment process, please include this information with your resume. The PTC is an equal opportunity employer and offers competitive salaries, attractive fringe benefits and retirement program. There is a Pennsylvania residency requirement, and the successful candidate must possess a valid Pennsylvania driver's license.

Please email resume and salary requirements by October 24, 2011, to ptcjobs@paturnpike.com; fax to 717-986-8760 or mail to:
