

## **Senior Bridge Inspector**

**CCJM** is seeking a Senior Bridge Inspector with at least five years experience leading inspection teams for local and state-owned bridges for our Camp Hill, PA office. Minimum qualifications include current Bridge Inspector Certification issued by the Commonwealth of Pennsylvania plus qualifications consistent with a PennDOT Bridge Inspector Team Leader. Fracture Critical Training, a BS in Civil Engineering and Professional Engineering registration preferred. Candidates should have good command of the English language with good oral and written technical communication skills. Demonstrated proficiency supervising NBIS, interim, and fracture critical bridge inspections, coordination/inspection for maintenance and/or repair activities, meeting project deliverables, allocating resources and team development are required.

**CCJM** is a mid-size, employee-owned company with offices in Pennsylvania, Washington D.C., Maryland, Michigan and Illinois. Entry-level team members work for and learn from our most experienced engineers. We offer a full range of consulting engineering services to our clients, including civil, environmental, transportation, mechanical, and electrical. **CCJM** provides competitive employee benefits. **EOE, M/F/D/V**
